SPECIALIZING IN DROUGHT-RESISTANT TREES

CATALOG
FOR

1938

PRAIRIE GARDENS NURSERY
McPHERSON, KANSAS

The value of any tree is determined by the amount of fruit it produces, or by the protection it affords, or by the added beauty it gives to the yard or landscape, or by the amount of lumber, fence posts, fuel or other products it may yield.

Every Kansas home needs trees for one of these purposes. We want to help you select the species best suited to your needs and to help you plan your planting so as to give you the best possible results.

The accompanying sketch gives our idea of a plan for a farm home planting that will give full protection from the wind, snow and sun and add attractiveness to the home. The commendable features of this plan are:

THE PRAIRIE GARDENS NURSERY specializes in growing hardy trees, shrubs, vines, and perennial plants suitable for midwest climatic conditions. Our stock is home grown, true to name, as far as it is possible to determine—vigorous, healthy.

We have seventy-five acres of growing stock of which twelve acres is irrigable by Skinner overhead sprinkling system. The irrigated section is used mostly for propagation purposes, which insures vigorous, healthy, and sturdy young plants.

Remember home grown trees and plants always give the best results. We extend to you a cordial welcome to visit our Nursery and inspect our seventy-five acres of growing stock.

TERMS. Cash must accompany all orders unless credit has been established. All orders for stock to be sent by parcel post must be accompanied by stamps or check to cover postage in addition to price.

LIABILITY. We accept all orders on condition that they shall be void should injury befall our stock from hail, fire, frost, error in count, or other causes over which we have no control.

(1) The shelter belts are located where they will catch and hold the snows and prevent drifts piling up around the buildings.

(2) The shelter belts as located in this plan will protect the buildings from the sweep of the north and northwest winds.

(3) The spacing of the trees as recommended in this plan permits them to be cultivated with any cultivating implement in common use on a Kansas farm.

(4) The cost of the trees recommended for planting is within reason and is the cheapest possible needed improvement that can be made on the farm.

Let us help you plan your shelter belt planting and select suitable kinds of trees.

CERTIFICATE OF INSPECTION. Every order is shipped under certificate of inspection and is apparently free from injurious insects and plant diseases that are communicable.

OUR GUARANTY. All goods are guaranteed to be alive and in good, vigorous condition when delivered to you. We do not guarantee continued growth. Remember a tree, shrub or plant is a living organism as much as a cow, horse, or man. It breathes, drinks, feeds, and is liable to attacks of disease and insects. At our prices it is impossible for us to guarantee growth or to be responsible for stock after delivery to our customers in good condition.

NON-WARRANTY. While we hold ourselves in readiness, on proper proof, to replace free of charge all trees, etc., that may prove untrue to label, or refund the amount paid, we give no warranty expressed or implied as to description, quality, productiveness, or any other matter of any Nursery stock, seeds, bulbs, or plants we sell

CHAS. R. NELSON, Manager
McPherson, Kansas

SHADE TREES

AMERICAN ELM.

The American Elm is the most commonly planted street and yard tree in America.

	Each	per 5	per 10
6-8' Trees.....	\$.75	\$3.50	\$ 6.00
8-10' Trees.....	1.25	5.50	10.00

2 1/2-3" Caliper.....	4.00

GINKGO or MAIDENHAIR TREE.

This is another Chinese tree, the striking feature of which is that it is the only survivor of a large group of trees of early geological times.

4-5' Trees.....	\$2.50 Each
-----------------	-------------

HACKBERRY.

The Hackberry is an exceedingly hardy drought resistant tree. It is one of the most satisfactory trees for street and yard planting in Kansas.

	Each	per 5	per 10
4-5' Trees.....	\$.35	\$1.65	\$3.00
5-6' Trees.....	.50	2.35	4.50

MAPLE, SOFT OR SILVER.

The soft or silver maple is one of the most beautiful as well as one of the cleanest trees for street and yard planting. It makes a rapid growth.

	Each	per 5	per 10
6- 8' Trees.....	\$.75	\$3.50	\$ 6.00
8-10' Trees.....	1.25	5.50	10.00

OAK, PIN.

The Pin Oak is a symmetrical, stately tree. The clear green foliage of summer changes to gorgeous autumn colors with the approach of frosty nights.

	Each
1 1/2-2" Caliper B & B...	\$5.00
2 1/2-3" Caliper B & B...	7.00

OLIVE, RUSSIAN.

A very hardy small sized tree with silvery gray foliage, flowers yellow, inconspicuous, but very fragrant.

	Each	per 5	per 10
4-5' Trees.....	\$.35	\$1.65	\$3.00
5-6' Trees.....	.50	2.25	4.00

Oldest Chinese Elm Tree in Kansas

This is a mid-winter picture of the first Chinese Elm tree planted in Kansas. It was planted on the Fort Hays Branch Experiment Station Farm, Hays, Kansas, in 1912. It is now 26 years of age, approximately 50 feet in height and in the prime of vigor and health. It has withstood the droughts, the heat and cold and the wind and hail of the past 26 years, as well as the grasshopper invasion of 1936, and is still growing vigorously

POPLARS, BOLLEANA.

Habits similar to the Lombardy, leaves dark green above, silvery white beneath. A good tree for screens and background planting.

	Each	per 5	per 10
4-5' Trees.....	\$.25	\$1.00	\$1.75
5-6' Trees.....	.35	1.65	3.00
6-7' Trees.....	.50	2.35	4.50

POPLARS, LOMBARDY.

A tall growing, narrowly branched tree, stately in appearance, foliage deep green. Very desirable for screens and background planting.

	Each	per 5	per 10
5-6' Trees.....	\$.35	\$1.65	\$3.00
6-8' Trees.....	.60	2.75	5.00

WILLOW, WEEPING.

A large, rapidly growing tree with many slender, graceful branches that sway in the breezes. Ideal for planting beside garden pools.

HYBRID TEA EVERBLOOMING ROSES

The following roses have proven highly satisfactory in our test garden over a series of years. They are hardy western grown plants strictly No. 1 in every respect. If planted in March or early April, they will produce blossoms by Decoration Day. There is no shrub or plant that produces a greater profusion or more beautiful flowers than our hybrid Tea Roses.

Plant roses in a sunny location in soil that has been spaded to a depth of 15 to 18 inches to which a heavy dressing of cow manure has been added. Give additional applications of manure annually and keep the soil moist throughout the summer by flood irrigation. Roses require a rich soil and an abundance of soil moisture.

Prices—Two-year old, strong, well rooted and well branched, strictly No. 1 plants, 50c each, 10 for \$4.50, 35c each in lots of 50 or more, except as stated below.

Two-year. Budded on the best roots for Midwest planting. Strictly No. 1 plants.

AUTUMN. Burnt-orange and yellow, splashed red.

CALEDONIA. One of the best whites. Full lasting flowers.

CONDESA DE SASTAGO. Petals of deep coppery pink inside and golden reverse.

DAME EDITH HELEN. Large double blooms, glowing clear pink.

DUQUESA de PENARANDA. A very effective color blend of apricot-orange and pink.

EDITH NELLIE PERKINS. Light cerise, inside of petals salmon with golden suffusion.

EDITOR McFARLAND. Double, well formed, brilliant deep pink.

E. G. HILL. Large lasting scarlet, shading deeper as they develop.

FRANCIS SCOTT KEY. Very double blooms, rich crimson.

HOOSIER BEAUTY. Glowing crimson with very dark shadings.

JOANNA HILL. Well shaped buds and blooms of light yellow with bronze shadings.

J. OTTO THILOW. Perfect buds and full flowers of rich rose-pink.

K. A. VICTORIA. Snowy white with pale lemon-yellow.

MARGARET McGREDY. Large, double, orange-scarlet blooms.

MRS. E. P. THOM. Fully double, pure yellow blooms.

MRS. PIERRE S. DuPONT. Double rich golden yellow blooms.

Red Radiance

ROSES (Contd.)

PRESIDENT HERBERT HOOVER. Blooms of creamy yellow with pink and flame tints.

RADIANCE PINK. Free flowering, rosy opaline pink.

RADIANCE RED. Very popular, free flowering cerise-red.

SYRACUSE. Large, double, well-formed blooms of bright scarlet-crimson, fragrant.

TALISMAN. Rich yellow and rose-red, two-tone blooms.

New Creations and Recent Introductions:

AMI QUINARD. One of the darkest red varieties. Velvety crimson-maroon.

COUNTESS VANDAL. Long buds with rich blend of pink, copper and gold. Price, \$1.00 each.

ETOILE DE HOLLANDE. Dark, velvety red; large, well formed blooms, fragrant.

MARY HART. Red. Same style as Talisman. Price, \$1.00 each.

SOEUR THERESE. Rich yellow, outside petals sometimes marked carmine. Blooms fully double and hold their color well.

SOUV. CLAUDIUS PERNET. Full blooms of extremely lasting, rich yellow.

TEXAS CENTENNIAL. Well shaped buds and blooms of a rose-red. Price, 60c each.

WILL ROGERS. Dark, velvety crimson maroon. Price, \$1.00 each.

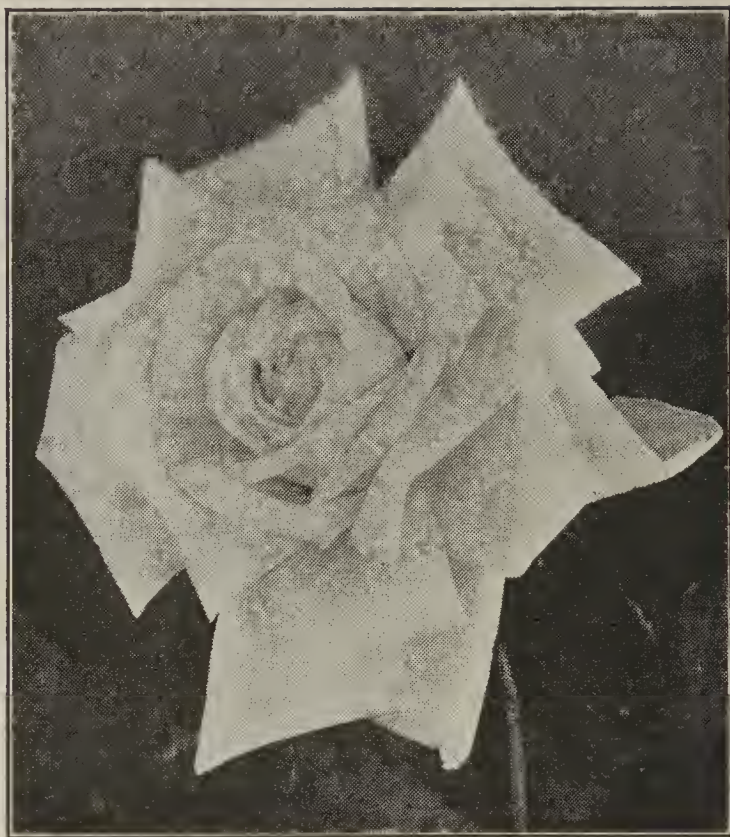

HYBRID PERPETUALS

(June Roses)

Two-Year, Strictly No. 1 Plants.

FRAU K. DRUSCHKI. Snow white, perfectly double flowers.

PAUL NEYRON. Mammoth blooms of clear pink.

Kaiserin Augusta Victoria

HARDY CLIMBING ROSES

DR. W. VAN FLEET. Vigorous grower, early to bloom, flesh pink.

PAUL'S SCARLET. Vigorous in growth, mid-season, vivid scarlet.

STAECHELIN. Long stemmed, delicate pink blooms with lightly curled petals. Hardy.

PRIMROSE. Climber, canary yellow, medium size.

PERENNIALS

FREE

Landscape Plan Service

Our Landscape Architect will be glad to call on you and offer help and suggestions for the arrangement of your contemplated planting. We will draw modern and artistic Landscape Plans without cost if we furnish the stock for your planting.

Proper and correct arrangement of your plantings is really worth as much if not more than the plants themselves—yet this costs you nothing extra.

HOOSIER BEAUTY

JOANNA HILL

PRESIDENT HOOVER

A Rose Garden for only \$2.50

Here it is: the six best roses for your garden at one rock bottom price. Buy all six and save money. The regular value on this assortment is \$3.00. You save 50 cents by buying as a group. **Hoosier Beauty**, a gorgeous vivid red rose that resists drought, fragrant and carries gorgeous big blooms on long stems. **Joanna Hill**, a clear yellow, with a delightful bud, a really good, yellow garden rose. **President Hoover**, shades of coral mixed with red and buff. This is one of the outstanding rose introductions of the century. A big bush and big blooms. Chas. P.

Kilham, long, slim tapering buds, opening to a coral red rose tinged with copper. A fine, strong variety that should be in every garden. **Etoile de Hollande**, a vigorous deep red rose, the backbone of the red section of your garden, **Edith Nellie Perkins**, a fine, clear, two-tone pink. Exceptionally strong and floriferous. All of these roses are particularly well adapted to the climate of Kansas and we have no hesitancy in recommending this group for your garden.
